

Handlist 2 – Parish Registers

Issue no. 59

March 2021

Listed below are the Church of England **parishes and chapelries** in the diocese of Durham, plus those in the diocese of West Yorkshire and the Dales which are in the county of Durham.

Where registers of baptisms, banns, marriages or burials have been deposited in Durham County Record Office the **covering dates** of the registers are given; these dates are those of the earliest and most recent register held in the Record Office, but it must not be assumed that all four types of register exist for the whole period indicated. Full details are given in our [online church register database](#).

The **catalogue reference** for each parish is given after the covering dates. If no dates or reference code are given then no registers are held in the Record Office and information concerning registers should be sought from the incumbent.

All registers held in the Record Office are on microfilm and to see them it is therefore necessary to reserve a microfilm reader. The original registers will not be made available.

Various **indexes** are available:

- "Boyd"* indicates that marriage and some banns registers (usually to 1812) are indexed in Boyd's Marriage Index, a copy of which is available in the Record Office;
- "IGI"* indicates that baptism and/or marriage registers (usually to mid-19th century) are indexed in the International Genealogical Index, available via FamilySearch, Ancestry or FindMyPast, or on microfiche in the Record Office;
- "Index"* indicates that transcripts and/or indexes to some of the registers are held in the Record Office;

for more details see [Handlist 8: Parishes Indexed on the IGI and on Boyd's Marriage index](#) and [Handlist 3: Modern Transcripts and Indexes \(Church of England\)](#)

Name of Parish or Chapelry	Covering Dates	Catalogue Reference	Indexes
